

PAMPLONA

TYPE: Aniline leather AVERAGE HIDE SIZE: 5.2m2 Thickness: 1.4 – 1.6 mm

Pamplona proudly exhibits all of the natural characteristics of a pure aniline leather. These are openly on display in the form of growth marks, fat wrinkles, etc. The pronounced surface grain is as a result of the leather being hand polished. This makes Pamplona one of the most unusual ranges in the Pelle Leathers Collection. Age and wear will only enhance this luxurious leather.

Characteristic	Test Method	Test Results	
COLOUR FASTNESS TO RUBBING	EN ISO 11640	Dry	3
	EN ISO 11640	Wet	3
TEAR STRENGTH	DIN 53329A	> 20 N
